

Hospice 101 – Learn what hospice is and how hospice can provide quality, compassionate care for people facing a life-limiting illness.

While it is never easy to have the conversation, it's important to help patients get the care they need from hospice. Hospice provides the right care at the right time, meeting the patient's needs and prognosis. Hospice provides patients and families with many resources to cope with the increasing needs of their loved one. Gentiva, an affiliate of Kindred Healthcare, is focused on pain and symptom management, and committed to help improve patients' quality of life.

Paula E. Larez is a Senior Hospice Specialist. She enjoys coaching new hires as a Peer Mentor and serving patients, their families and the community at large.
